

BORN TO SURVIVE

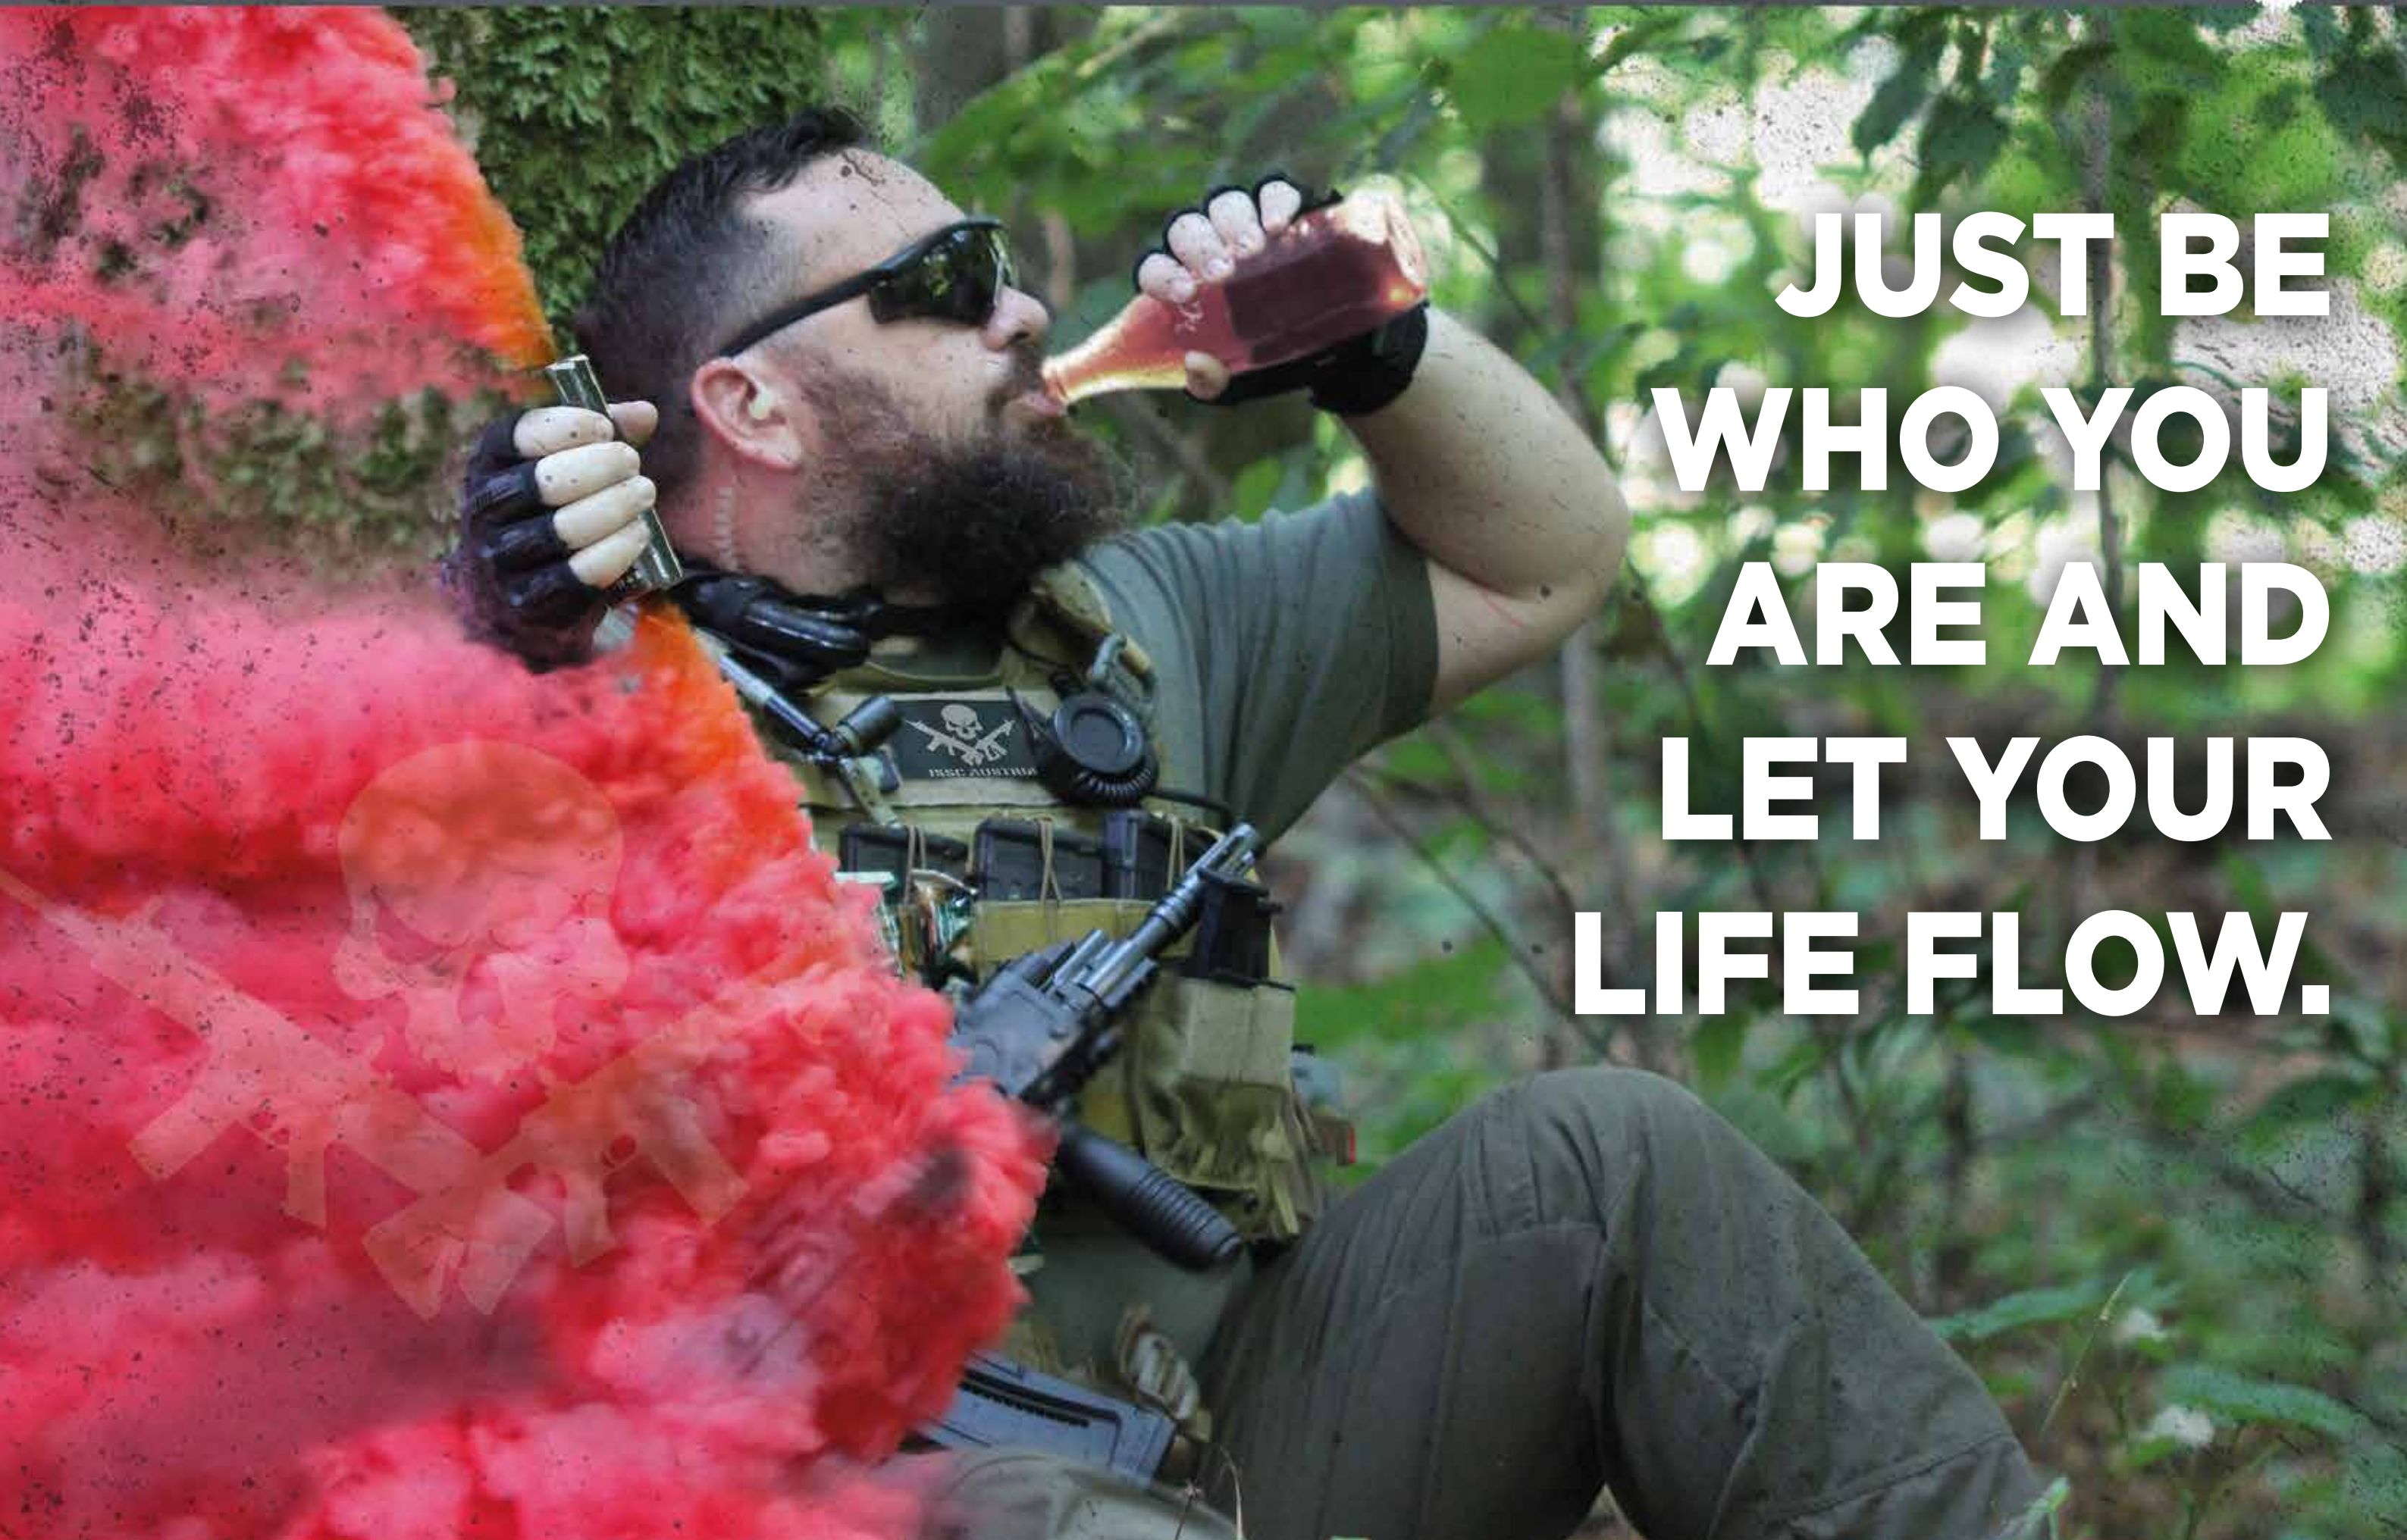

EDITION 2020

**ISSC
AUSTRIA**

OUR SPIRIT

**JUST BE
WHO YOU
ARE AND
LET YOUR
LIFE FLOW.**

ONLY TOGETHER WE ARE STRONG!

I am pleased to present you our new catalogue 2020/21. We are proud of „Made in Austria“ and guarantee Austrian quality, precision and reliability.

2020 will be an exciting year. The EU Weapons Directive must be implemented and we will see how our political representatives tackle this issue.

Even outside the EU, there are repeated efforts to regulate the private possession of weapons more strictly, if not to ban it completely.

The only ones who suffer as a result are sports shooters, hunters and respectable gun owners.

Let us therefore continue to represent our interests together, because only together we are strong!

ed by a aluminium tube, integrated suppressor

THE SOUND OF SILENCE

The silenced firearm with an integrated suppressor

The barrel is enclosed in a carbon tube that contains the suppressor. At first sight it is not visible that this is a noise reduced firearm. The barrel length of 355mm, respectively 510mm (including the supressor) results in excellent precision, while also delivering the best possible noise reduction.

Technical Data SPA NINJA	ATU	Standard
caliber	.22 LR	
barrel length without (with) suppressor	335 mm (520 mm)	
total length	895-970 mm	990 mm
total weight	3.1 kg	2.3 kg
magazine	10 rounds

FOR QUIET MOMENTS

Technical Data SPA NINJA C	
caliber	.22 LR
barrel lenght without (with) suppressor	335 mm
total lenght	810 mm
total weight	2,1 kg
magazine	10 rounds

The new SPA Ninja C is an extremely compact hunting rifle in caliber .22lr with 355mm barrel length. This allows the rifle to achieve maximum precision and, despite the installation of a silencer, remains short and easy to handle.

The SPA Ninja C is available without silencer as well as in a set with silencer.

Art.Nr. 130105

M22 OMNI DESERT SD
Art.Nr. 130209

M22 OMNI DESERT SD with silencer*
Art.Nr. 130109

Thanks to the optimized slide, the M22 OMNI works with any .22 LR standard ammunition. This ensures proper cycling of the gun without having to use HV-cartridges.

The newly developed quick assembly system, enables you to mount or remove a red dot sight within seconds. The mounting plate is included with every gun.

Using the M22 Omni with an optical sight may still require the use of high-velocity ammunition, due to the added weight of the sight.

Technical Data M22	OMNI	OMNI SD	OMNI TARGET

RELIABLE LESS LETHAL SELF-DEFENCE PISTOL

The ISSC M22 cal. 9 mm P.A. expansion gas guns represent the top quality among gas pistols. They are made in Austria. We offer them in different versions (black, titanium, desert) and are indistinguishable from the „live“ small caliber versions ISSC M22 (.22LR). They are characterized by low weight, compact dimensions, quality manufacturing, and thanks to their shape they fit perfectly in your hand. These guns are equipped with two safeties, type of trigger - single action. These models come in a portable plastic case.

the ISSC Tactical Survival Knife

an original SAMI STINNER DESIGN

Art.Nr 1126185

The rough surface structure, numerous recessed grips and generously dimensioned finger protection ensure safety when working with the knife.

The approx. 12.5 cm long Full-Tang blade made of stain-less, titanium-coated 440 steel has a back thickness of of 6.0 mm and thus ensures the impressive weight of 310 g.
